FESTURA

Connection needs no translation

Nawfel Amechrouk · Cross Media Design I · 25/10/2026

1 · YOUR CORE TOUCHPOINT

Street poster linking to a visual, text-free web app

The medium

I choose a street poster with a QR code that opens a visual Figma web app for Amira, because they walk through the city and the festival grounds, looking for quick and easy ways to discover new cultures without reading long texts. It works both alone and together, first in physical space on the street and then on a mobile screen. Unlike a traditional text-heavy poster or a printed paper booklet, it makes people curious with a large compass symbol and a QR code, and then guides them in the app using only symbols, artist photos, and sound previews. To make it, I need Adobe Illustrator for the poster, a QR code generator, Figma for the interactive app, artist photos, audio clips, and a smartphone for testing.

The key moment

At the street poster when scanning the QR code, Amira instantly understands the earthy atmosphere without reading a single word and feels interconnected.

What test round 1 changed

1 · Changed the stark white background to a warm linen colour (#ece5d3) — because testers said the white version felt too cold and digital instead of 'earthy' and 'tactile'.

2 · Filled in the dark, detailed woven patterns inside the central compass circle — because testers found the open, light version too empty and less striking from a distance.

2 · THE CHANNEL MATRIX

How you reach [persona]

Channel	Goal	Format	Specs & cost	Launch	Success
Where it appears	What your persona does or feels	What it is	Size, length, file type · tools, cost, time	Before, start or during	What you can count
EXAMPLE (UPSTAIRS) · DELETE Bakery door	Make passers-by curious	Sticker with QR code	80 × 80 mm vinyl · €40 per 100, 3 days	2 weeks before	QR scans
CORE TOUCHPOINT Mobile browser (via QR code on street & entrance)	Navigate the festival without words and feel interconnected with other cultures.	Interactive, text-free web app (mobile website).	mobile screen, SVG/PNG assets · Figma hosting, €0 (student license), 14 hours to build	1 month before & during the festival.	Active users on the web app & clicks on audio previews.
NON-CONVENTIONAL Tables at local coffee bars & world cafés	Touch the rough cardboard texture while drinking coffee, feel the tactile vibe, and scan the QR code.	Tactile cardboard drink coaster (bierviltje) shaped like the FESTURA compass.	90 × 90 mm recycled beer mat board (1.4 mm thick), vector PDF · Illustrator & Drukwerkdeal.be, €35 per 250 coasters, 3 days delivery.	2 weeks before the festival.	QR scans coming from the coaster link & coasters taken home.
Local cafés, world shops & cultural centres	Become curious about the compass symbol and feel the earthy atmosphere.	Printed A2 street poster with large QR code	A2, recycled biotop paper, PDF/X-1a · Illustrator & Drukwerkdeal.be, €48 per 50 posters, 3 days delivery.	3 weeks before the festival.	Unique QR scans coming from the poster link
Instagram Reels & TikTok (local city targeting)	Hear rhythmic world music, see clay textures, and click the link in bio.	Short vertical video without spoken or written words.	(9:16), 15 seconds, MP4 · Smartphone camera, CapCut & Instagram Ads, €30 ad boost, 4 hours to film/edit.	2 weeks before & during the festival.	Video views, profile visits, and link clicks.

Channel	Goal	Format	Specs & cost	Launch	Success
Festival entrance & local coffee bars	Keep a physical memory that feels tactile and gives quick access to the app.	Woven fabric wristband with the FESTURA compass & QR tag.	15 × 350 mm woven polyester, 2 colours, vector PDF · Illustrator & Promobandjes.be, €85 per 200 pieces, 5 days delivery.	At the start of & during the festival.	Number of wristbands worn & QR scans at the entrance.

Amira’s journey

Before the festival	During	After
Step 1: Amira sits at a local coffee bar and notices a tactile cardboard coaster with a mysterious terracotta compass under her cup. ● **Channel:** Non-conventional compass drink coaster	Step 1: Amira arrives at the festival entrance and receives a warm, woven fabric wristband instead of a paper ticket. ● **Channel:** Woven fabric wristband	Step 1: Back on the train home, Amira opens the web app again to listen to the audio preview of the artist they just saw live. ● **Channel:** Core Touchpoint (Visual web app)
Step 2: Later that week, while having coffee at a local bar, Amira sees the terracotta compass symbol again on the wall. ● **Channel:** Printed A2 street poster	Step 2: Amira scans the QR code on the wristband to see which stage has live drumming right now without reading any text. ● **Channel:** Core Touchpoint (Visual web app)	Step 2: Amira sees an atmospheric recap video without words on their phone and shares it with friends. ● **Channel:** Instagram Reels & TikTok
Step 3: At home on the couch, Amira scrolls through social media, hears an energetic drum rhythm in a video, and clicks the link to explore the line-up. ● **Channel:** Instagram Reels & TikTok → Core Touchpoint (Visual web app)	Step 3: While walking between stages, Amira uses the four compass triangles on their screen to find the World Table food area. ● **Channel:** Core Touchpoint (Visual web app)	Step 3: Amira keeps wearing the woven wristband for weeks as a tactile memory of the festival. ● **Channel:** Woven fabric wristband
